

Home laundry.

Logixx

Our premium range, with exceptional cutting-edge features and extras. A 1400rpm washing machine, with LED display clearly showing you the wash progress. Offering a wide range of programme options designed for today's lifestyle, like the Dark and Sports Wash programmes, and the blisteringly fast Super Quick 15-minute programme for light loads – one of the shortest complete washing programmes of any machine on the market.

Exxcel

Mid-range models with a broad range of extra features and benefits. Including a large capacity 7kg washing machine with unique Soft Surge drum system and space saving washer dryer. Both feature dedicated handwash wool programmes to take care of your most delicate woollens.

Home laundry features and benefits.

Programmes

Dark wash

Designed specifically for dark clothes, and available across a range of temperatures, this programme reduces fading, and ensures no flecks of washing powder remain on your clothes at the end of the wash.

Delicates silk

An especially caring programme with a gentle wash action. Intermediate spinning in the rinse cycle is omitted, and a gentle final spin at 600 rpm completes this delicate programme.

Handwash wool

An exceptionally gentle woollens handwash programme, which runs at only 27 rpm (usual speed 50 rpm) with a soft wash action and special spin phase that ensures that everything stays in good shape.

Mixed load

A fast wash that allows mixed fabrics and colour loads to be safely washed together. Originally designed with school uniforms in mind, it is capable of handling up to 3kg of washing, and is ideal for quick washes that might be required before a full load of laundry has been collected.

Power wash 60

The Power Wash 60 programme for medium loads (up to 5kg) gives an A-class performance wash within 60 minutes.

Sensitive

By prolonging the maximum wash temperature, increasing the water level, and adding an extra rinse, this programme reduces exposure to allergens that irritate sensitive skin.

Sports wash

A programme for modern sports clothes with Sportswear microfibre technology like those used for gym, cycling or jogging.

SuperQuick 15

A short programme of approximately 15 minutes for 2kg of lightly soiled washing – that's roughly equivalent to one outfit or 10 men's shirts. Packing in a wash, two rinse cycles and improved rinse spinning, this is one of the shortest complete washing programmes of any machine on the market.

Freshen up

This handy feature gives clothing the lightest of washes without using any detergent – particularly useful for freshening up stored clothes or eliminating the smell of cigarette smoke on lightly worn clothes. It cuts down on wear and tear of clothes, takes only 20 minutes and reduces energy use.

Pre-wash option

For especially dirty clothes, a pre-wash will loosen dirt and remove it from the clothes prior to the main wash.

Reduced ironing option

The laundry is tumbled gently periodically during the normal programme spin cycle, and then at the end of the spin phase, keeping laundry fluffy and tangle free. The result is reduced creasing, and therefore easier ironing.

Performance

Better than A-rated energy efficiency

All our washing machines deliver an A rated wash performance, while using as much as 10% less energy than required for A rated energy efficiency.

Aqua plus

With Aqua Plus, a higher water level is used throughout the wash and rinse cycles of the chosen wash programme – for best rinsing results.

Wash plus system

The Wash Plus system extends a wash programme to give a more intensive wash, and brings the equivalent of an A-class wash performance to a wider range of temperatures than ever before. Unlike most washing machines on the market, Bosch machines now deliver the equivalent of an A-class performance not only at 60°C, but at 40°C and 90°C as well.

3D AquaSpa wash system

A wash and shower system for optimum washing results. Water enters the drum from three sides for quick and effective distribution. During the cycle specially designed paddles scoop up the water gently bathing the wash load, ensuring gentle washing and optimum usage of the water in the drum.

Unique SoftSurge™ drum system

Gives better cleaning results, as well as providing greater protection for your washing. The asymmetric paddles and 'rain-drop' drum surface design provides power for those heavy-duty jobs, while being gentle on your clothes. The advanced Water Flow System more efficiently distributes the water and detergents through the wash, and reduces soaking time. Add to this new moulding of the window glass that guides your laundry towards the centre of the drum, and so avoids snagging of small items between the glass and the door seal, and you have the new state-of-the-art SoftSurge™ drum system; efficient, gentle and time saving.

Convenience

Time delay

This option allows you to programme your washing machine to start between 1 and 24 hours after you set it. So you can time your washing to be ready for when you get home, or take advantage of cheaper late-night electricity rates.

Digital display

Our Logixx washing machine features a large display that clearly shows the wash progress, time remaining, spin speed and temperature selected.

Safety

MultiSafe

All Bosch washing machines are designed with safety in mind, from the highly pressure-resistant water supply hose and overflow prevention systems, to the electronic lock that prevents the porthole from being opened unintentionally mid-cycle.

Logixx washing machine

WIS28440GB white

- New display with programme status via symbols, remaining time, spin speed
- Large capacity 7kg
- Express Wash system with up to 40% faster programme times
- Wash Plus system for A wash performance
- Freshen Up programme
- Mixed Load programme
- Variable spin speed selector through display in 200 rpm steps
- Maximum spin speed 1400 rpm
- 15 'Clothes Care' programmes
- Reduced ironing option
- Aqua Plus option
- Power Wash 60
- Handwash Wool and Delicates
- Selectable prewash
- Time delay 1 – 24 hours
- SoftSurge drum
- 3D AquaSpa wash system with cascade for faster water penetration
- SuperQuick 15
- Dark Wash
- Sensitive Wash
