

Tassimo T20: Black Beauty

November 2011

Bosch has added a smart black version to its popular range of Tassimo multi-drinks machines.

The stylish, black TAS2002GB (T20) offers a world of flavour to everyone who loves quality coffee or tea in the excellent compact design that has proved such a winner in white.

The Tassimo T20 offers the best of the award-winning Tassimo system, Bosch's renowned quality and superb premium coffees, teas and creamy hot chocolate.

Drinks are prepared at the push of a button, and a barcode system with single-shot "T-Discs" enables the machine to set up the perfect caffè crema, espresso, latte macchiato, cappuccino, tea or hot chocolate. But if you want your brew your way, no problem – the Tassimo T20 can be manually overridden with your personal preference. And, whatever size of cup you prefer, the cup platform can be adjusted to accommodate it.

Bosch's super-efficient through-flow heating technology, ensures almost instant water heat-up at switch on, with no wait time between cups.

And trust Bosch to get the details right, from one-button operation to a variable-height cup tray — so there's no splashing or spills – and the 1.5 litre water tank means you aren't constantly refilling.

The latest Tassimo T20 machine by Bosch is also highly energy-efficient because water is only heated on demand for each cup and when not in use the T20 goes into stand-by mode.

The Tassimo T20 couldn't be easier to use and care for, with an easy descaling system for those in hard-water areas, and dishwasher-safe parts. There's neat cable storage and it even has a compartment for the quick-start manual.

When it comes to choice, there's something for everyone in the great Tassimo T-Disc range. As well as a wide variety of ground coffees and styles — from rich espresso to creamy cappuccino and delicious latte — there are also quality teas, including Earl Grey, green tea and mint tea. And if neither tea nor coffee tempt you, what about a rich cup of hot chocolate?

Tassimo T-Discs come in over 20 different flavours, and more are added regularly. The most popular selections are available in most supermarkets, while more specialist drinks can be ordered online.
